

BBQ Trailer setup instructions

Park BBQ Trailer on level ground.

Chock wheels and Un-hitch trailer from vehicle

Wind jockey wheel up or down until level.

Lower rear legs and wind down.

Remove tonneau cover from over BBQ and place on front deck of trailer.

Lower tailgate

Release BBQ locks from left and right side to allow BBQ to slide out until it locks into fully out position.

Place grease/fat drain tin under BBQ that hangs in position. Tin is located in front box of trailer.

Turn gas bottle on.

Light BBQ by turning left and right out knobs on first which have the ignitors built in. Proceed by turn other knob on. You will find that you only need to cook on the low setting.
